## Principal's Message

Bienvenue à l'École Notre Dame School

Notre Dame is a dual track (French Immersion) Pre-Kindergarten to Grade Six School located in the South Park area of Leduc. We are the designated elementary school for the communities of Willow Park, Linsford, Telford Lake, Caledonia, Meadowview, Tribute, Robinson and Leduc County. We also offer an Athletics Excellence program for Grades 4-6. As well, we offer Before and After School Care and Kindercare.

Fulfilling our goal of providing a quality Catholic Education for all students requires the collaborative teamwork of the administration, staff, students, parents and parish. We are able to provide an enriched program for all of our students as a result of this great teamwork. Our staff is committed to working together to provide engaging learning opportunities for all students and supporting them with our Response to Intervention (RTI) program. We work closely with Father Leduc Catholic School to ensure our grade 6 students experience a positive transition to Grade 7. We are very fortunate to have a mutually supportive and positive relationship with our School Council and parent community. We also work closely with St. Michael Parish to ensure that our students grow in their faith life. The surrounding business community shows continuous generosity in support of various school activities and social justice projects.

Ecole Notre Dame School is a community rooted in Jesus Christ. Together we are called to believe, achieve, and serve.

## Emerging Issues and Trends

- Continuous improvement is an emerging issue. This is likely due to the restructuring of our Resource Room Program into a Response to Intervention focused program. Response to Intervention (RTI) is a program in which struggling learners are provided with targeted interventions to increase their rate of learning.
- The Athletics Excellence Program (Grades $4-6$ ) is a very popular program. In the past students who enrolled in Athletics Excellence in Grade 4 and/or 5 were allowed to register early for the program the following year, which took up the majority of the spots. This was a deterrent to new registrants because they did not know if, by the time they got to Grade 5 and 6 , there would be a place for them.
- According to the Our School Survey (Grades 4-6 students), compared to the Canadian norm of $86 \%$ of students having a high sense of belonging, Ecole Notre Dame School is at 71\%. Last year was 75\% (Canadian Norm 86\%)
- Also on the Our School Survey, the Canadian Norm for students with moderate or high levels of anxiety (intense feelings of fear, intense anxiety, or worry about particular events or social situations) is $16 \%$. Ecole Notre Dame School is at $24 \%$
- Parent response to the Accountability Pillar survey has been low for a number of years.

## Strategies to Address Issues and Trends

- We provided two differentiated instruction which focused on how to teach the same material to all students using a variety of instructional strategies and giving ideas on how to deliver lessons at varying levels of difficulty based on the ability of each student. Students that are in a lower academic level are with their classes receiving differentiated instruction and are also pulled out for targeted interventions for approximately twenty minutes per day. Literacy reps are engaging in professional development that focuses on programs such as Newsela which adjusts reading passages to suit the varying reading levels within the classroom. As well, Accelerated Reader is a program that focuses on reading at level with comprehension as a focus. In the French Immersion program, we use the on-line program Lecture Enfant - Livre Video. Another on-line reading program we are using for the English stream is RAZ Kids.
- With the Athletics Excellence Program, we will be opening up registrations to all students from Grades $4-6$ on opening registration day.
- We have diversified the clubs that we offer even more and teachers who run the clubs are not only advertising the clubs in announcements, but also by asking students individually if they want to join. Some of this year's clubs include Pokemon Club, Playground Pals, School Patrollers, Kindness Club, Book Club, Art Club, Dance Club, French Conversation Club, and Poetry Club.
- We will provide 2 half-day workshops for teachers with a focus on social-emotional well-being. Teachers will transfer their knowledge to the students. Anxiety will be a topic in health classes. Character Education classes will use the videos for "Growth Mindset" which will focus on trying without fear of failure. As well, we have started a virtues program which often centers around trying our best, but we will never be perfect. We also do the Mind Up Program and at our school, modelled by our Family School Liaison Worker. Students also participate in Zones of Regulation, which helps them recognize when they are becoming dysregulated. In addition, each grade level has a Health and Wellness kit to use with their classes. Part of the kit is a Hoberman Sphere which acts as a guide for breathing in and out when a student is experiencing anxiety.
- School Council will work with the Principal to generate ideas on how to get more parents to fill in the Accountability Pillar Survey.

## Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6 . Suppression is marked with an asterisk
(*).
2. Overall evaluations can only be calculated if both improvement and achievement evaluations are available.
3. Results for the ACOL measures are available in the detailed report: see "ACOL Measures" in the Table of Contents.
4. Student participation in the survey was impacted between 2014 and 2017 due to the number of students responding through the OurSCHOOL/TTFM (Tell Them From Me) survey tool.
5. Aggregated PAT results are based upon a weighted average of percent meeting standards (Acceptable, Excellence). The weights are the number of students enrolled in each course. Courses included: English Language Arts (Grades 6, 9, 9 KAE); Français (Grades 6, 9); French Language Arts (Grades 6, 9); Mathematics (6, 9, 9 KAE); Science (Grades 6, 9, 9 KAE); and Social Studies (Grades 6, 9, 9 KAE).
6. Participation in Provincial Achievement Tests was impacted by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by this event.
7. Aggregated Diploma results are a weighted average of percent meeting standards (Acceptable, Excellence) on Diploma Examinations. The weights are the number of students writing the Diploma Examination for each course. Courses included: English Language Arts 30-1; English Language Arts 30-2; French Language Arts 30-1; Français 30-1; Mathematics 30-1; Mathematics 30-2; Chemistry 30; Physics 30; Biology 30; Science 30; Social Studies 30-1; and Social Studies 30-2.
8. Caution should be used when interpreting evaluations and results over time for Mathematics 30-1/30-2, as equating was not in place until the 2016/17 school year. Alberta Education does not comment on province wide trends until it has five years of equated examination data.
9. Participation in Diploma Examinations was impacted by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by this event.
10. Weighting of school-awarded marks in diploma courses increased from $50 \%$ to $70 \%$ in the 2015/2016 school year. Caution should be used when interpreting trends over time.
11. Due to the change from previous data source systems to Provincial Approach to Student Information (PASI), Rutherford Scholarship Eligibility Rate results prior to 2015 are not available.
12. 2016 results for the 3-year High School Completion and Diploma Examination Participation Rates have been adjusted to reflect the correction of the Grade 10 cohort.

## Measure Evaluation Reference

## Achievement Evaluation

Achievement evaluation is based upon a comparison of Current Year data to a set of standards which remain consistent over time. The Standards are calculated by taking the 3 year average of baseline data for each measure across all school jurisdictions and calculating the 5 th, 25th, 75 th and 95 th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The table below shows the range of values defining the 5 achievement evaluation levels for each measure.

| Measure | Very Low | Low | Intermediate | High | Very High |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Safe and Caring | $0.00-77.62$ | $77.62-81.05$ | $81.05-84.50$ | $84.50-88.03$ | $88.03-100.00$ |
| Program of Studies | $0.00-66.31$ | $66.31-72.65$ | $72.65-78.43$ | $78.43-81.59$ | $81.59-100.00$ |
| Education Quality | $0.00-80.94$ | $80.94-84.23$ | $84.23-87.23$ | $87.23-89.60$ | $89.60-100.00$ |
| Drop Out Rate | $100.00-9.40$ | $9.40-6.90$ | $6.90-4.27$ | $4.27-2.79$ | $2.79-0.00$ |
| High School Completion Rate (3 yr) | $0.00-57.03$ | $57.03-62.36$ | $62.36-73.88$ | $73.88-81.79$ | $81.79-100.00$ |

| PAT: Excellence | $0.00-9.97$ | $9.97-13.44$ | $13.44-19.56$ | $19.56-25.83$ | $25.83-100.00$ |
| Diploma: Acceptable | $0.00-71.45$ | $71.45-78.34$ | $78.34-84.76$ | $84.76-87.95$ | $87.95-100.00$ |
| Diploma: Excellence | $0.00-9.55$ | $9.55-12.59$ | $12.59-19.38$ | $19.38-23.20$ | $23.20-100.00$ |
| Diploma Exam Participation Rate (4+ Exams) | $0.00-31.10$ | $31.10-44.11$ | $44.11-55.78$ | $55.78-65.99$ | $65.99-100.00$ |
| Transition Rate (6 yr) | $0.00-39.80$ | $39.80-46.94$ | $46.94-56.15$ | $56.15-68.34$ | $68.34-100.00$ |
| Work Preparation | $0.00-66.92$ | $66.92-72.78$ | $72.78-77.78$ | $77.78-86.13$ | $86.13-100.00$ |
| Citizenship | $0.00-66.30$ | $66.30-71.63$ | $71.63-77.50$ | $77.50-81.08$ | $81.08-100.00$ |
| Parental Involvement | $0.00-70.76$ | $70.76-74.58$ | $74.58-78.50$ | $78.50-82.30$ | $82.30-100.00$ |
| School Improvement | $0.00-65.25$ | $65.25-70.85$ | $70.85-76.28$ | $76.28-80.41$ | $80.41-100.00$ |

## Notes:

1) For all measures except Drop Out Rate: The range of values at each evaluation level is interpreted as greater than or equal to the lower value, and less than the higher value. For the Very High evaluation level, values range from greater than or equal to the lower value to $100 \%$.
2) Drop Out Rate measure: As "Drop Out Rate" is inverse to most measures (i.e. lower values are "better"), the range of values at each evaluation level is interpreted as greater than the lower value and less than or equal to the higher value. For the Very High evaluation level, values range from $0 \%$ to less than or equal to the higher value.

## Improvement Table

For each jurisdiction, improvement evaluation consists of comparing the Current Year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.

The table below shows the definition of the 5 improvement evaluation levels based upon the chi-square result.

| Evaluation Category | Chi-Square Range |
| :--- | :--- |
| Declined Significantly | $3.84+$ (current < previous 3-year average) |
| Declined | $1.00-3.83$ (current < previous 3-year average) |
| Maintained | less than 1.00 |
| Improved | $1.00-3.83$ (current > previous 3-year average) |
| Improved Significantly | $3.84+$ (current > previous 3-year average) |

## Overall Evaluation Table

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The table below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.

|  | Achievement |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Improvement | Very High | High | Intermediate | Low | Very Low |
| Improved Significantly | Excellent | Good | Good | Good | Acceptable |
| Improved | Excellent | Good | Good | Acceptable | Issue |
| Maintained | Excellent | Good | Acceptable | Issue | Concern |
| Declined | Good | Acceptable | Issue | Issue | Concern |
| Declined Significantly | Acceptable | Issue | Issue | Concern | Concern |

## Category Evaluation

The category evaluation is an average of the Overall Evaluation of the measures that make up the category. For the purpose of the calculation, consider an Overall Evaluation of Excellent to be 2 , Good to be 1, Acceptable to be 0 , Issue to be -1 , and Concern to be -2 . The simple average (mean) of these values rounded to the nearest integer produces the Category Evaluation value. This is converted back to a colour using the same scale above (e.g. 2=Excellent, $1=$ Good, $0=$ Intermediate, $-1=$ Issue, $-2=$ Concern)

## Divisional Goal: Growing Catholic Identity Continued

## Faith Strategy Example \#1:

- Engaging students in responding decisively to the survey statement "Teachers talk about faith in other classes, not just religion class." $19 \%$ of students said "don't know" to this statement. Teachers will speak to their classes about how faith is brought up in other subjects areas and give examples.
- Our Grade 3's will be hosting a retreat for all Leduc STAR Catholic Schools in the spring. As well, Our Grade 6's will participate in a retreat for all Leduc STAR Catholic Schools at Fr. Leduc School.
- Reminding teachers at the beginning of the year that daily prayer will happen on announcements, but should be part of their routine (i.e. grace before lunch; in-class prayer using the Children's Daily Prayer book).
- Work closely with St. Michael Parish to organize classroom visits for sacramental preparation.
- Working with the St. Michael Parish Knights of Columbus who purchase bibles for all Grade 4 students
- $\quad$ Purchase of Bibles for all of our Grades 2 and 3 classes
- Visits from parish priest Fr. Silvichan
- One Mass at the parish (bus all staff and students)
- $\quad$ Staff invited by parish to attend sacramental events at the church (i.e. first reconciliation celebration, etc.)
- Encourage staff to get involved in EXCEL and Newman course offerings.
- Host a Grade 3 Retreat at our school for all the Catholic schools in Leduc.

## Link to Board Priority - Key Indicator:

Growth \& Affirm Catholic Identity: Mentor and encourage ongoing faith formation, study and practice in the Catholic faith.

## Faith Strategy Example \#2:

A part of our staff retreat experience over the past two years, our staff has done Acts of Kindness. They organize where they will be going and invite others who may be interested. One of the new ideas this year was that some staff visited various parking lots and left cards with a kind of message and a treat attached under the wiper blade. The students in Kindergarten and Grade One created the cards. Some staff members participated in a morning of prayer for all unborn children and their parents. A third new idea this year was that some staff helped Leduc Linx with self-defense class for adults with developmental disabilities. Staff shared what they did for retreat day with their classes. Also, pictures were shared throughout Social Media.

One of first goals was to get our chapel operational - screens, projectors, sound system - so that we can use it for liturgical celebrations, Masses, and events. In November, we hosted a Blanket Exercise which was preceded by a prayer that focuses on both "Creator" and "God. Invited were senior administration, board members, staff and parents from all Leduc schools. This took place in the chapel. In December we will have two Advent Liturgies of the Word, and an Advent Mass all in the chapel. We will also invite families to our school to celebrate Christmas Concerts with concerts on Monday, Tuesday, Wednesday, and Thursday so that everyone that wants to come can make it and will have a seat.

Many teachers also post their Religion art projects on their bulletin boards. As well, they talk about virtues with their class (as per virtues program). Also, student art work and bible verses are posted on Social Media.

Parents are always invited to attend liturgies, Masses and celebrations. As well, parents are notified if their child will be a part of any of the ministries. We see many proud parents at our Masses and celebrations. We try to have our Masses as early as possible so that the St. Michael parishioners who attend weekday Mass are able to attend.

Staff are involved as volunteers in the church in RCIA programs, Children's Liturgy, as Lectors, Eucharistic Ministers, and Music Ministers.

Our school's Week at a Glance is used to invite parents to upcoming activities and to thank them for helping with social justice projects the school has been involved in.

We have staff prayer on Mondays during Advent. We also have a staff prayer in the staff room on Fridays after school at 3:30.

## Link to Board Priority - Key Indicator:

School communities will incorporate a spirituality of communion through invitation and hospitality so all are welcomed and respected.

## Outcome One: Alberta's students are successful

## Comment on Results <br> (an assessment of progress toward achieving the target)

Our acceptable standard went up by almost $10 \%$ compared to the year before. However, our overall percentage of students in Grade 6 who achieved the standard of excellence went down by $1.5 \%$. Part A of the Mathematics achievement test proved to be difficult for the students. For the first time in many years, $100 \%$ of our students wrote all of the provincial achievement tests.

## Strategies

We continue to be involved with the district's numeracy cohort, sending one division I teacher and one division II teacher to each of these professional development opportunities as they take place regularly throughout the year. Each of these staff members then shares what they have learned with the staff on meeting and PD days.

We are continuing with Professional Learning Communities (PLC's) which are embedded into the schedule. During these blocks teachers collaborate to analyze data and discuss strategies for student success. Part of what they do is to plan together blocks of time in which they can work with small groups. For example, on Friday morning for two blocks, the Grade 6 teachers, Vice Principal, and an Educational Assistant work with students in groups targeting areas in which they need help. Other grades have started to do a What I Need (WIN) block with their students with a focus on literacy. Teachers are also using Daily 5 / Café in both the English and French Immersion programs. A program called "Nana" is used by the French students to help in decoding and comprehension.

## Comment on Results

(an assessment of progress toward achieving the target)
Achievement was very high and overall excellent in the area of students modeling the characteristics of active citizenship, which has been maintained over the years. There was a $3.5 \%$ drop in the area of teachers and parents who agree that students are taught attitudes and behaviors that will make them successful at work when they finish school. Still, this drop isn't alarming, falling in the maintained category of improvement.

## Strategies

Our students are involved in a number of programs that help others: Salem Manor visits, Drive Sober Liquor Bag Campaign, creating Anti-Bullying posters, involvement in AMA School Patrollers, and Playground Pals. Whole school campaigns are food bank drives, two cancer research fundraising drives, Santa's Helpers, Tree of Warmth, Holy Childhood Mission fundraising and St Zita foundation.
We prepare our students for the future in all of our health classes. A few education-based evening events that we host at our school also are excellent for preparing students for the future. One is the Wax Museum, where students research and make a display about a famous person. We also have a Science Fair in which students prepare various displays which focus on Science. All of the students have a chance to visit the Wax Museum and the Science Fair.

## Comment on Results

(an assessment of progress toward achieving the target)
We have maintained very high and overall excellence in the performance measure that students are safe at school, are learning the importance of caring for others, are learning respect for others, and are treated fairly in school. This is an area that is a part of our culture and that we are proud of.

## Strategies

One of our newer clubs is "The Kindness Club" in which students brainstorm and carry out acts of kindness towards others, like sending anonymous kind messages to others or creating posters that promote the importance of being kind to others. As well, we have a "Bucket Filler" program by which students can receive a special wristband at our monthly assembly which recognizes that they have done something good toward someone else. French Immersion students are also recognized for their excellent attitude when they receive an "Amis du Francais" certificate. One of our classes also created a beautiful video for a former staff member in palliative care. As a school, we also pray daily for her health and the health of others. Each year we also have an Adaptive Abilities week where students all of the chance to do activities while in a wheelchair. In this way, students better understand what life in a wheelchair is like for the two wheelchair students in our school and other individuals in wheelchairs that they might encounter.

All grades also receive forty minutes of instruction each week in character education where topics like caring for and respect of others are part of the program.

We also bring in presenters that focus on bullying. This year we had Safire, a motivational circus show. The students really enjoyed the performance and took away many messages about caring for and respect of others. Every second year our students create an anti-bullying logo that they submit for consideration for the pink shirt offered for sale. It is also nice to see so many students participate in pink shirt day which is a focus of discussion in all classrooms and in an assembly that day. Constable Muz also speaks at one of our assemblies on the topic of bullying.

The Virtues Program which was introduced this year focuses on one virtue per month. Staff concentrate on the virtue of the month when they submit names to the Bucket Filler program. Our new Religious Studies Program (up to Grade 4) is also an excellent way for our students to connect with Catholic values that translate well with caring for and respect of others.

Comment on Results
(an assessment of progress toward achieving the target)
Over the past five years, results have ranged from $80.2 \%$ to $90.8 \%$, evaluated as high, overall good, and maintained. Our achievement is high in this area, but we are always working on broadening our program of studies.

## Strategies

We have added some Fine Arts experiences and have continued to offer excellent physical education experience. Teachers have access to professional development in technology. We also have a laptop cart and 14 iPads. Students have access to Chromebooks in our library too.

We are proud of our excellent Physical Education Program. Students receive some of their Physical Education with our specialist and some with their homeroom teacher. We also offer an off campus program called Athletics Excellence which takes place on Tuesday and Thursday afternoons. In this program students experience a variety of unique physical education experiences on Tuesdays, and are in either hockey or soccer on Thursday afternoon. This year we will continue with a Dance Club offered at lunchtime recess. This club is more of a "jazz" style club. However, we also have another teacher who will be offering African Dance as a club.

This year one of our French Immersion teachers is starting a French Conversational Club for students who are not in French Immersion. Students also have the option at lunch hour recess on Mondays, Wednesdays, and Fridays, to go to Coding Club. We also have an Art Club.For Fine Arts, we hosted a play at our school that was presented by Grade 8 drama students from Father Leduc Catholic School. Will Stroet, a bilingual musician, will also perform at our school during the week we have "Carnaval". Each year, as well, our Kindercare students go from class to class to perform a song and dance.

## Comment on Results

(an assessment of progress toward achieving the target)
Teachers and parents satisfied with parental involvement in decisions about their child's education ranged from $71.5 \%$ to $88.8 \%$ over the past five years. Results in 2018 were 79.3, rating achievement as high and overall good, maintaining this performance measure.

Teachers, parents and students satisfied with the overall quality of basic education was very high, ranging from $91.2 \%$ to $95.6 \%$. This is overall excellent and maintained as such.

The one area in which we have declined significantly, therefore making the performance measure an issue, was the percentage of teachers, parents, and students indicating that their school and schools in their jurisdiction have improved or stayed the same the last three years. This area has ranged from $75.6 \%-96.2 \%$. We dropped from last year's score of $88.6 \%$ to this year's score of $75.6 \%$, a decrease of $13 \%$. The drop in score, for the most part, comes from a "Don't know" from $30 \%$ of the teachers, which registers as a negative response in the survey.

Strategies.Notre Dame continues with the support and implementation of Response to Intervention. Change is the biggest challenge, as there are some staff members who have been at Notre Dame since the Resource Room began. We try to focus on the positives of why this change was important. One of the improvements is that we are now able to offer 60 students in the school daily interventions of approximately 20 minutes each. Also, with continued professional learning community (PLC) meetings weekly, teachers can work on plans together that will allow for them to share data and ideas and to plan for how to respond to where each student is at. Over time, their dedication to the RTI philosophy, should allow for an increase in
this percentage. As well, a reminder to teachers to respond decisively on the survey, should help to increase this percentage.

Notes:

1. Data values have been suppressed where the number of respondents/students is fewer than 6 . Suppression is marked with an asterisk
${ }^{*}$ ).
2. Achievement Evaluation is not calculated for courses that do not have sufficient data available, either due to too few jurisdictions offering the course or because of changes in tests.
3. Participation in Provincial Achievement Tests was impacted by the fires in May to June 2016. Caution should be used when interpreting trends over time for the province and those school authorities affected by this event.
4. Part A, which requires students to complete number-operation questions without using calculators, was added to Mathematics 6 in 2016/2017 and Mathematics 9 in 2017/2018, respectively.

## Measure Evaluation Reference - Achievement Evaluation

Achievement evaluation is based upon a comparison of Current Year data to a set of standards which remain consistent over time. The Standards are calculated by taking the 3 year average of baseline data for each measure across all school jurisdictions and calculating the 5 th, 25th, 75 th, and 95 th percentiles. Once calculated, these standards remain in place from year to year to allow for consistent planning and evaluation.

The table below shows the range of values defining the 5 achievement evaluation levels for each measure.

## Notes:

1. 

The range of values at each evaluation level is interpreted as greater than or equal to the low
ry High evaluation level, values range from greater than or equal to the lower value to $100 \%$.
2. Achievement Evaluation is not calculated for courses that do not have sufficient data available, either due to too few jurisdictions offering the course or because of changes in tests.

## Improvement Table

For each jurisdiction, improvement evaluation consists of comparing the Current Year result for each measure with the previous three-year average. A chi-square statistical test is used to determine the significance of the improvement. This test takes into account the size of the jurisdiction in the calculation to make improvement evaluation fair across jurisdictions of different sizes.

The table below shows the definition of the 5 improvement evaluation levels based upon the chi-square result.

| Evaluation Category | Chi-Square Range |
| :--- | :--- |
| Declined Significantly | $3.84+$ (current < previous 3-year average) |
| Declined | $1.00-3.83$ (current < previous 3-year average) |
| Maintained | less than 1.00 |
| Improved | $1.00-3.83$ (current > previous 3-year average) |
| Improved Significantly | $3.84+$ (current > previous 3-year average) |

## Overall Evaluation Table

The overall evaluation combines the Achievement Evaluation and the Improvement Evaluation. The table below illustrates how the Achievement and Improvement evaluations are combined to get the overall evaluation.

|  | Achievement |  |  |  | Very Low |
| :--- | :---: | :---: | :---: | :---: | :---: |
|  | Very High | High | Intermediate | Low | Goper |
| Improved Significantly | Excellent | Good | Good | Good | Acceptable |
| Improved | Excellent | Good | Good | Acceptable | Issue |
| Maintained | Excellent | Good | Acceptable | Issue | Concern |
| Declined | Good | Acceptable | Issue | Issue | Concern |
| Declined Significantly | Acceptable | Issue | Issue | Concern | Concern |
